SWIMWEAR CRAFTED OUT OF
OCEAN RECOVERED FISHING NETS

Production Cycle

From fishing nets to swimwear

Healthy Seas Initiative

Responsible for recovering ghost fishing nets by volunteer divers. We additionally support The Healthy Seas Initiative through 1% For The Planet.

Econyl® Regeneration

Econyl® transforms the recovered ghost fishing nets together with other waste into first grade nylon.

Sustainable Fabric

In Italy the Econyl® yarn is processed and developed into a high-tech swimwear fabric.

Collection Design

Seamless, athletic and chic. Designed to fit the demanding lifestyle of the modern woman. Perfect fits that transcend the beach lifestyle.

Production

In cooperation with our partner in Turkey we develop the collection under strict quality control and supervision.

Premium Swimwear

Look gorgeous and make the ocean a better place. Swimwear crafted from ocean recovered fishing nets.

Fit & Fabric
Features

Fits

- Seamless styles provide a smooth, figure flattering look. From yoga to surfing; our seamless fits are ideal for any of your favorite sport activities.
- Reversible pieces offer more styling possibilities. They are ready to match your day mood.
- Mix and match the bikini pieces in any way you want. Sold separately, ready to be combined as you please.

Fabric

- Sustainable: one bikini piece (e.g. Free Dive Hipster Bottom) eliminates 67 grams of waste.
- UV Protection: the fabric works as a filter against sunrays, ensuring 50+ UV protection factor.
- Shape retention: It offers the perfect degree of muscular compression and support. The pieces retain their shape overtime.
- Perfect fit: the extreme elasticity of the fabric enhances its shaping power and comfort. It guarantees maximum movement freedom.
- Ultra chlorine resistant: live test made with the material have shown that after 100 hours of use in chlorinated water, the material does not lose its shaping and compression power.

Sundance Triangle Top

- Seamless
- Thin removable soft cups
- Adjustable back straps
